Unique Student Identifier (USI)

You must hold a valid USI to receive a nationally recognised qualification. Your USI is a 10-character identifier giving you a government-authenticated record of all your VET achievements since 2015. Create or retrieve your USI at www.usi.gov.au. Contact Student Support if you believe you may be exempt.

Language, Literacy, Numeracy and Digital (LLND)

All students without a Certificate III or higher (or demonstrated equivalent experience) complete an LLND assessment before training commences. This helps us identify support needs and plan reasonable adjustments. Where support needs are identified, we agree on adjustments with you before training begins.

3. Your Course

How Your Course is Delivered

Your course is delivered in accordance with a validated Training and Assessment Strategy (TAS). Trainers are qualified and current in their industry. Delivery modes include online, in-person, and supported blended learning, as confirmed in your enrolment confirmation email.

ACI may engage third parties to deliver training or assessment on its behalf. If this applies to your course, you will be notified in writing. ACI remains responsible for all training, assessment, and certification.

Support During Your Course

Trainers and assessors provide support via email, Cloudemy discussion boards, and scheduled check-ins. The following support services are also available to all students at any time:

- Academic support – LLND assessment, study skills workshops, one-on-one tutoring, and reasonable adjustments
- Wellbeing services – confidential screening, counselling referrals, and regular check-ins
- Diversity and inclusion – accessible materials, cultural support, interpreter access, and peer mentoring

To request support, complete the Support Services Form in Cloudemy or speak with your Trainer, Student Support Officer, or the RTO Manager. We will acknowledge your request within 2 business days.

5. Assessment

How You Will Be Assessed

All assessments are designed and conducted according to the Principles of Assessment: Fairness, Flexibility, Validity, and Reliability. Evidence you provide must be valid (relevant to the unit), sufficient (covering all competency aspects), authentic (your own work), and current (reflecting recent performance).

You will receive an Assessment Guide and Assessment Cover Sheet for each task at least 5 business days before the due date.

[Full policy: B3 – Assessment Policy](#)

Submitting Assessments

All assessment tasks must be submitted through Cloudemy unless otherwise instructed. Tasks may include written responses, case studies, or presentations. Incomplete tasks will not be assessed and will be returned to you. Late submissions without an approved extension may not be accepted.

Academic Integrity and Use of AI

Students must submit their own original work. Plagiarism, contract cheating, and falsification are academic misconduct.

The use of artificial intelligence (AI) tools is permitted to assist with your assessments. However, a 'human-first, human-last' policy is strictly enforced. Direct copying and pasting of information, essays, paragraphs, or any data from AI sources, such as ChatGPT, Gemini, Bard, Grok, or Copilot, is prohibited. While these tools can be valuable resources, their tendency to generate inaccurate or fabricated information ('hallucinations') necessitates critical evaluation. You are required to fact-check, edit, paraphrase, and rewrite any AI-generated content in your own voice, ensuring the accuracy and currency of the information. Failure to comply will be considered plagiarism.

Disclosure requirements vary by program. ACI's approach to AI disclosure is tiered according to the level and nature of each qualification. Your Assessment Guide sets out what disclosure is required for each assessment task in your course. Where disclosure is required, failure to declare AI use will be treated as academic misconduct.

Should the assessor find evidence suggesting plagiarism, the matter will be referred to the RTO Manager (or other appointee) who will draft a formal report of the evidence. The RTO Manager/appointee may discuss the matter with the learner directly. The report will be brought to the attention of the CEO who may refer the matter to the Professional Development Committee of the Board, who will make a judgment based on the evidence made available to them as to whether plagiarism has occurred and whether the plagiarism is considered unintentional or intentional. The CEO and the Professional Development Committee will determine whether the case should be brought before the Board and the Ethics Committee.

After reviewing the evidence, the Professional Development Committee may take the following courses of action:

- The candidate's submission is graded as Not Yet Satisfactory (NYS) with no eligibility to resubmit. The learner must re-enrol in the course if they wish to undertake it again. Fees may apply. Australian Compliance Institute Ltd reserves the right to disallow a learner from study should the learner be deemed non-compliant with ACI's policies or Code of Ethics.
- The candidate's submission is graded as Not Yet Satisfactory (NYS), with the option to resubmit at a date specified by the Professional Development Committee.

For further details, please refer to the Academic Integrity Policy.

[Full policy: B3 – Assessment Policy](#)

Referencing

All students must use the author-date system, often referred to as the Harvard referencing system, when citing sources in assessments, including in-text citations and a reference list. Guidance is available at <https://www.stylemanual.gov.au/referencing-and-attribution/author-date>.

Assessment Outcomes and Resubmissions

The marking scheme is Satisfactory (S) / Not Yet Satisfactory (NYS). To receive a Satisfactory result, you must demonstrate competency against all prescribed criteria.

Resubmission Rules

Each assessment allows a total of 3 attempts: your initial submission plus up to 2 resubmissions. Each resubmission must be lodged within 30 days of receiving assessor feedback on the previous attempt. The first two resubmissions are at no additional cost. Further attempts beyond the 3 permitted attract a fee of \$250 (+ GST) per attempt.

Course End Date and Extensions

All assessments must be submitted by the course end date in your enrolment confirmation. Extension requests must be submitted before the due date with supporting evidence and a proposed timeline.

Extensions of up to 10 working days may be granted by the CEO. Longer extensions are referred to the Professional Development Committee. Requests submitted after the course end date are considered only in extreme circumstances; requests more than 60 days after the end date will not be considered.

If you do not complete by the end date (including approved extensions), you may re-enrol at the full course fee. Previously completed units may be considered for credit transfer.

[Full policy: B3 – Assessment Policy](#)

Evidence types include: formal transcripts, work samples, portfolios, job descriptions, statutory declarations, workplace observation, interviews, and letters from supervisors. You will receive a written outcome within 10 business days of your RPL interview.

[Full policy: B4 – RPL and Credit Transfer Policy](#)
